- 4:00pm – 5:00pm **Session – Airport Management 101**
Room: Peacock Court

This session will look at several key areas of Airport management from the perspective of what should be important to an Airport governing body. These areas include the airport as a business, the airport as an economic engine and the airport as a community asset. In each area, the role of the governing board and the airport management will be discussed. The session will be interactive and discussion by all attendees will be encouraged.

Speaker: Steve Grossman, Retired CEO, Jacksonville Aviation Authority

Room: Lobby Terrace

11:00am – 12:00pm **Session – Some Things are Actually Happening in Washington – Recent Developments Affecting Airports**
Room: Peacock Court

Although much of Washington remains gridlocked, a number of federal policy changes are quietly being implemented that affect airports. Many of these come from Congressional direction in the FAA Reauthorization Act of 2018, which was enacted last October. As the industry evolves, the FAA is considering changes in regulation of airport development, new financial tools for airports, safety mandates, the role of airports in regulating drones and other topics that could, collectively have a significant effect on airport development, operations and management.

Speakers: Peter Kirsch, Partner, Kaplan Kirsch Rockwell

12:00pm – 1:00pm **Session – Technology: an Airport Leadership Blessing or Curse?**
Room: Peacock Court

There is no let-up in the technology storm that is sweeping airports. From biometrics to autonomous vehicles – and everything in-between - airports are ripe for technology-enabled change. But what does that look like? And is it all good?

This session seeks to put in context the current technological revolution and its impact on aviation and airports. It frames the challenges and opportunities for airport leaders and suggests actions for Board members and Commissioners.

Speaker: Ian Law, Chief Information Officer, San Francisco International Airport

1:00pm – 2:30pm **Networking Lunch**
Room: Room of Dons

2:30pm – 3:30pm **Session – Let’s Get Real: What Kinds of Airport Projects Make Successful P3s**
Room: Peacock Court

Join ACI-NA’s Beyond the Runway Coalition partner the Association for the Improvement of American Infrastructure (AIAI) for a brass-tacks, get-real discussion about what types and sizes of airport projects are best suited as public-private partnership (P3) procurements. Panelists will lead discussions around their experience with U.S. airport construction, finance, and operations, and answer questions about the use of alternative procurements and private capital to help modernize U.S. publicly-owned airports.

Speakers:
Steve DeWitt, Senior Vice President, ACS Infrastructure Development, Inc.
David-Olivier Tarac, Managing Director ADP International Americas at Groupe ADP
Sue Lee, Senior Managing Director / Principal, Ernst & Young
