Air Cargo Data Working Group Mission

- Identify air cargo data needs, gaps and deficiencies

- Understand current air cargo data reporting and access issues

- Engage with external parties known to collect and maintain air cargo data

- Leverage ACI-NA's position in the industry to affect change and improve air cargo data quality, availability, and accessibility

Why is this Important to Airports?

- **Air Cargo Market Analysis**

  - Defining catchment areas

  - Understanding cargo flows and leakage

  - Marketing for new/expanded air services

  - Tracking performance and trends

- **Air Cargo Planning**

  - Facilities/infrastructure needs and development

  - Master Plan updates

  - Forecasting

Current Activities

- Continuing outreach efforts with air cargo data collectors and providers

- Create Air Cargo Data Glossary

- Consolidating contact information at relevant organizations for distribution to air cargo committee

- Organizing Working Group coordination call for early October

Air Cargo Data Glossary Development
