KEEP AMERICA'S AIRPORTS FROM FALLING BEHIND

Our nation's airports are falling behind. U.S. airports need new infrastructure investments to modernize for 21st century air travel demands. With \$100 billion in annual infrastructure needs, current funding only scratches the surface of airport funding requirements. We can meet our airport infrastructure needs by:

1. Eliminating federal restrictions on the local Passenger Facility Charge user fee.
2. Increasing the Airport Improvement Program.
