Thursday, April 4, 2019

8:00am – **Networking Breakfast** (*Imperial Ballroom*)  
9:00am

9:00am– **Workshop – The Conundrum of Reducing Environmental Impacts while your Airport Grows –Part 1**  
10:00am (*Grand Ballroom A*)

This workshop is designed to highlight the information sharing that we all find so valuable. The first hour we will share information about the challenges and potentially solutions that we're facing in working to reduce environmental impacts while growing your airport. During the second hour, we'll dig more deeply into the key areas identified out of the group conversation, further discussion and idea sharing, as well as needs identification.

To make this work, we need you all to come prepared to participate and share. Please bring a project that you'd like to tell the group about, and in 5 minutes or less answer the questions: What is the project? What level of attention is it getting (Internal stakeholders/External Stakeholders)? Are environmental impact reductions a requirement to achieve approvals for the project to move forward? Approximately what is the incremental cost impact of incorporating environmental impact reduction? What element of the project are you and the team most proud of?

10:00am– **Networking Break** (*Imperial Ballroom*)

## **AIRPORT TOUR**

We thank the Salt Lake City Department of Airports, which has arranged for a tour of “the New SLC”, its ongoing terminal redevelopment project at Salt Lake City International Airport. The tour will take place on the afternoon of April 4. Busses will leave the Grand American Hotel promptly at 1:00 pm and the tour will conclude in the Airport’s terminal by 3:30 pm.

Bus transportation will be provided back to the hotel for those staying at the Grand American Hotel on Thursday night. Those departing SLC by air following the tour will be able to store their luggage in a secure location while the tour is underway.

All attendees must preregister for the tour at

<https://www.surveygizmo.com/s3/4845518/2019-AW-Tour>

Up to 50 people can attend and will be accommodated on a first-registered, first-served basis.

Since we will be visiting an active construction site, tour attendees must wear closed-toe shoes and high heels are prohibited.
