From Vancouver to St John's, Canadians in all provinces have embraced the brand as the ambassador of the food of Thailand and consequently making Pad Thai as common as poutine.

Thai Express Transborder Hold

Thai Express International Hold

The concept's ability to deliver fresh cooked meals filled with sweet, savoury, sour and spicy Thai flavours, hot and fast, is a natural fit for travelers that do not have the luxury of time but crave eats that are both comforting and exotic.

We respect how time is precious to travelers and strive to provide a fresh flavourful Thai meal without delay within minutes.

They can even use our signature Thai Express take-out box to enjoy it on their flight.

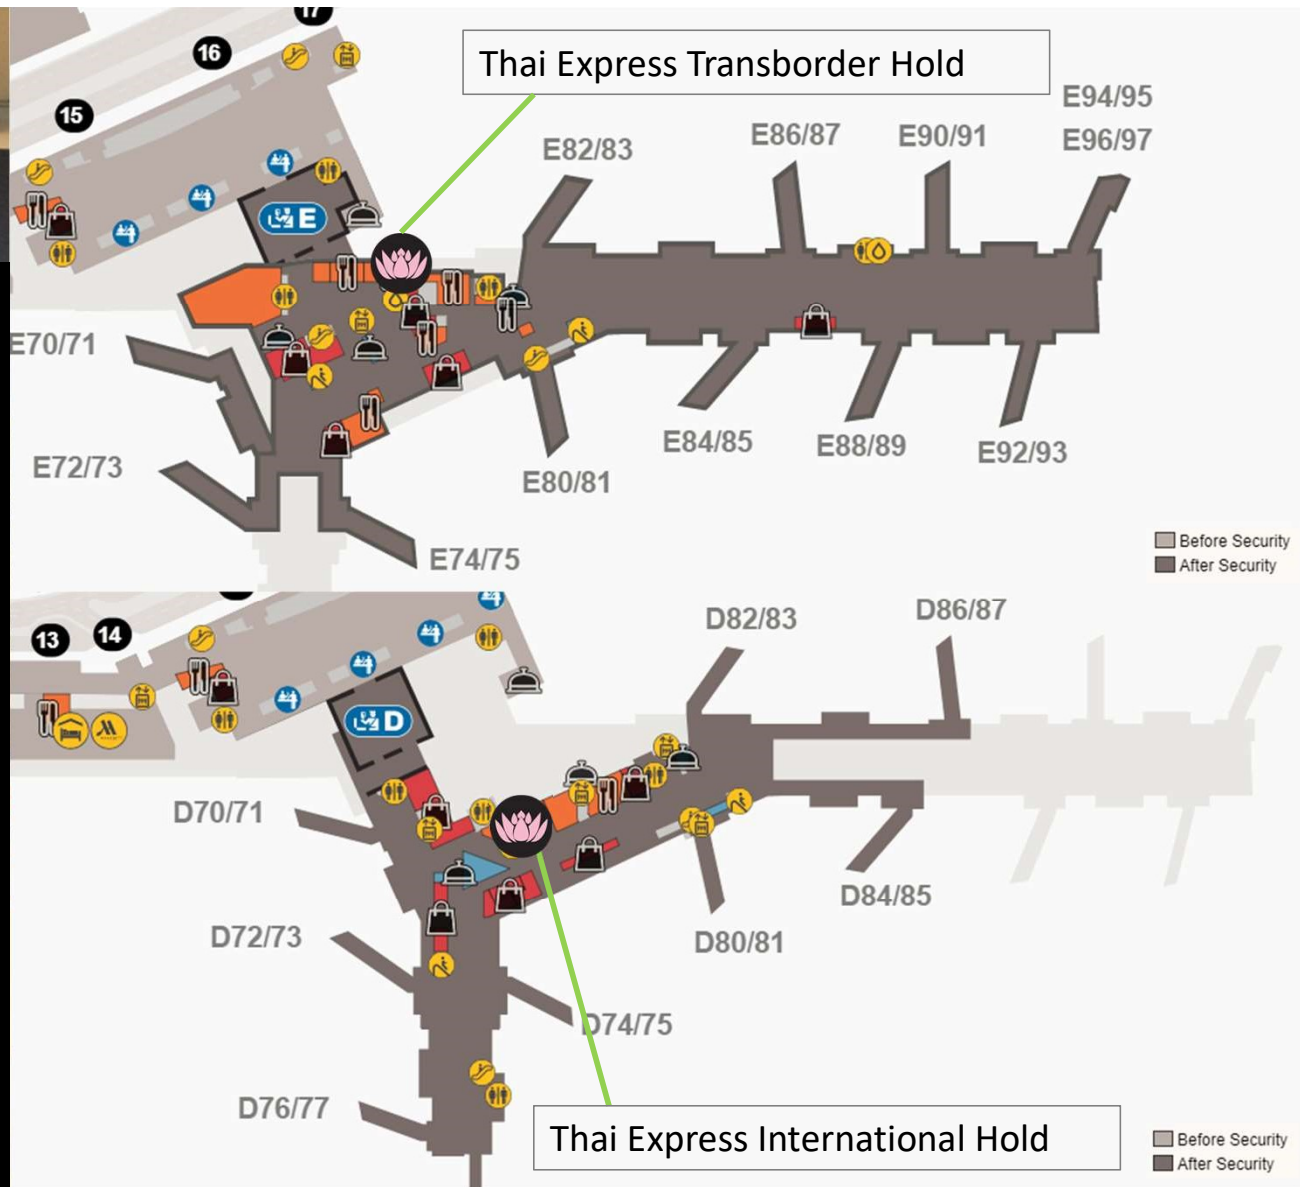

The Thai Express menu is deceptively simple, it offers an individual over 300+ options to choose from to cater to their individual tastes and preferences. This allows clients to enjoy the dish, protein and level of spiciness exactly the way they like it.

Both the Thai Express Transborder Terminal and International Terminal locations are centrally located in each of their respective food courts. It is also a privilege to be able to serve travelers at both terminals and share our food with a greater audience.

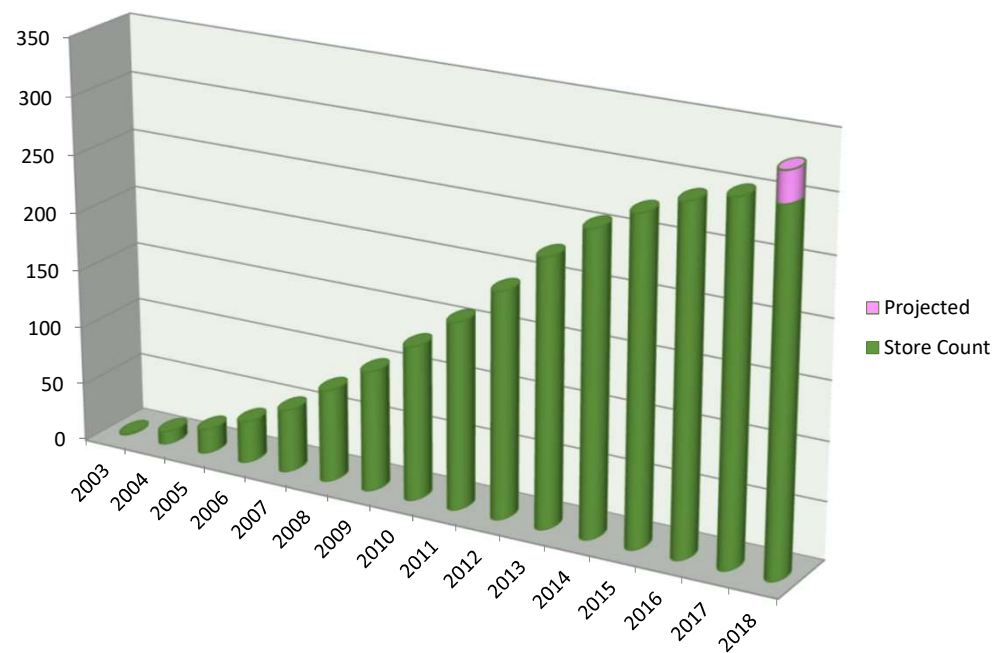

Consistent brand growth and solid sales potential

Thai Express Transborder Terminal and International Terminal combined

Square Feet	1329
Gross Sales	\$1,338,394
Sales per Square Foot	\$1,044
