Sustainability Integration & Advisory Council

CEO Forum Update
February 7, 2019

Kurt Gering

*Chair | ACI-NA Sustainability Integration & Advisory Council
Director | SAN Talent, Culture & Capability*

Many airports are using sustainability to drive innovation & improve their resiliency...

ACI-NA's EONS Framework

In 2017, ACI-NA Board formed a new...

Sustainability Integration & Advisory Council to provide leadership and facilitate an integrated approach to industry efforts to optimize economic, environmental, and social capital

*Sustainability should be a cross-disciplinary,
cross-committee endeavor*

First-Year Priorities

1. **Populate the Council's roster** with diverse representatives from ACI-NA's established Committees.
2. **Spread understanding across the Committees** of the Council's purpose and role.
3. **Enhance ACI-NA conference programming** with sustainability-related topics.
4. **Initially focus on "Sustainable Aviation Fuel"** as a topic requiring an integrated approach throughout the ACI-NA Committee network.

Sustainable Aviation Fuel (SAF)

A Triple-Bottom Line Example

- Can SAF create local economic development? (E)
- Do airports need new infrastructure for SAF? (O)
- What are the emission reductions from SAF? (N)
- Will SAF require new community and workforce development efforts? (S)
