Mobile Passport

JFK Airport is pleased to offer Mobile Passport Control express lanes for expedited entry into the United States. Travelers must be either U.S. passport holders or Canadian visitors and have downloaded the Mobile Passport app.

The Mobile Passport app enables travelers and their family members to submit their passport and declaration information to U.S. Customs and Border Protection (CBP) via their mobile device instead of completing the traditional paper form, then access separate, expedited Mobile Passport lanes in the Federal inspection area. The app does not require pre-approval or an interview to use, just download, and go!

Download Mobile Passport for your mobile device today:
