## ARRIVING AT O'HARE: A NEW GLOBAL TERMINAL

### SHAPE THE FUTURE OF ORD

Calling it a "once in a lifetime opportunity" to reimagine O'Hare International Airport (ORD), Chicago Mayor Rahm Emanuel has launched a global search for architects to design the new terminal—the centerpiece of what will be the biggest expansion in the airport's history.

More than any other city, Chicago is known for its innovative architecture. The City is carrying on this tradition with a competition calling upon the world's best designers and using public feedback to deliver one of the most cutting-edge terminals in the nation.

Five teams are in the running to design the new O'Hare Global Terminal. Now we're calling on Chicagoans to share their opinions on which best represents a modern new O'Hare and the City's aviation future.
