Over the course of three years, Minneapolis-St. Paul International Airport will have completely revamped the shops and restaurants at Terminal 1. This expansive project includes 35 new shops and 45 new restaurants.

Each new space was thoughtfully designed—pushing boundaries and redefining the status quo. The food and merchandise offerings are more diverse than ever before.

This concerted effort has been rewarded as travelers continue to discover more to love at MSP. 2018 was a record-breaking year for concession revenue and this is just the beginning.

For those that don't know, Salty Tart coconut macaroons are beyond incredible! Thanks to #FoodTruckAlley we were able to bring some home since we couldn't stop at the shop. Thanks @TheSaltyTart and #MSP! #JBF #MNNinAZ #Minnesota #Arizona #Dessert

This airport is beautiful! The new and interesting restaurants (Black Sheep, Lolo, Smack Shack) and stores and the upgraded restrooms make this possibly the best airport in the country in my humble opinion. Also, it's clear that security has been enhanced with limited access from the street side.

Travelers and the media are taking notice.
