

## *Accident Investigations:*

*Highlighting opportunities to reduce future incident occurrences and improve your airports safety program, while reducing your liability.*

*January 16, 2020*

*ACI – Risk Management*

# What is an accident/incident?

- It is an occurrence which may cause an adverse impact or loss to an asset and may be physical or economic.
- It may arise due to physical damage to assets or injury or property damage to a third party.
- It may also include an alleged act involving organization officials, employees or specialized services, such as police operations.

# Why investigate/report incidents?

- The failure of people, equipment, supplies or surroundings to behave or react as expected, causes most incidents.
- Incident investigations determine how and why these failures occur.
- Incident investigations are a tool to find main causes of incidents and allows for corrective actions.
- Incident investigations are a tool for claim prevention and mitigation.

# Benefits of investigation & reporting

- Provide a safer environment, which:
  - Prevents future incidents
  - Mitigates future incidents
  - Protects people and assets
- Reduce, eliminate or transfer liability

# Negative into Positive

- **Negative associations:**
  - Injury, illness, death, damage, lost productivity, morale and money.
- **Positive associations:**
  - Increase productivity, improve operations, better claim management, prevention and mitigation of future incidents.

# Who investigates/responds?

- Any employee - multiple locations, shifts, duties
- Majority of Port of Seattle's incident are at the airport
  - Airport Duty Managers, Landside Managers, Security, Police, Fire
- Uniform training needed

# Developing Training - Process

- Working session with relevant stakeholders (risk, operations, security, insurer)
- Working group developed talking points
- Insurer used talking points to develop a presentation
- Insurer/consultant delivered presentation to two groups (different shifts) of frequent responders responsible for reports and investigation
- Presentation developed into interactive training to assign to others

# Training Objectives

- Incident investigation
  - What is it, why is it needed?
- Causes of the incident
  - Factors to examine
- How to report incidents
- Financial impact of incidents

# Training: Incident Investigation

## – Initial response

- Obtain treatment, identify damaged property, assure safety, coordinate responders, secure the scene, examine continuity of operations

## – Information Gathering

- Accurate, enough, and timely while avoiding increasing liability
- Interview to establish an understanding and to obtain in their own words what happened.

# Training: Information Gathering

- **Do:**

- Put them at ease
- Emphasize purpose is prevention
- Let witness/party talk – listen
- Make short notes
- Ask open ended questions
- Be sensitive and observant

- **Do Not:**

- Intimidate
- Interrupt
- Prompt
- Ask leading questions
- Admit liability or reference prior incidents
- Make judgements

# Training: Incident Investigation

## — Analysis and Conclusion

- Observations on possible root cause and contributing factors, recommendations or request for repairs.
- Five whys

# Training: Causes of Incidents (factors)

- **Human Factors**
  - Experience, training, physical capabilities, health, fatigue, stress
- **Tasks**
  - What were they doing? How?
- **Equipment**
  - Failure, design, hazards, vehicles

# Training: Causes of Incidents (factors)

- **Environment**

- Design, conditions, housekeeping, weather, lighting, noise

- **Management**

- Support, policies, culture, training, supervision, maintenance, accountability

# Training: Incident Reporting

- Why report
  - Share findings
  - Make improvements
- How to report
  - RMIS WebForm
- Report examples
  - Who, what, where, when & why

# Training: Incident Reporting – How?

- Webform exports into RMIS
  - Five Report Types
- Download pictures or attachments
- Document that can be shared/sent to stakeholders

**Part of Incident**  
**General Liability Incident Report**

Incident No.:	XXXXXXXXXXXX
Business:	Name of Incident: 123 Street
	Time of Incident: 10:00 AM
Location of Incident:	123 Street, Boston

Work Person Name:	John Doe

# Training: Incident Reporting Reminders

- Emphasize objective information only, this is a public document.
  - Be cautious not to increase liability - just the facts.
- If you think Risk or Legal should know something more – call them or send a follow up.

# Training: More Reporting Reminders

- Confidential medical information
- Dissemination of information/reports
- Public Disclosure

# Training: Financial Impacts of Incidents

- Provided data on individual incidents and their cost:

- Collision with a parking barrier, - \$130,000
- Ice slip and fall \$154,000
- People mover sudden stop - \$14,000

- Overall Incident Numbers:

- In 2019 we had xxx number of incidents, resulting in xxx dollars paid

# Training: Financial Benefits

- Accurate reporting allows for transfer of liability through agreements or contacts
- Use facts to defend claim

# Questions & Thank You
