**AIRPORT CONSTRUCTION STRATEGY SUMMIT:
 DESIGNING & DELIVERING A BETTER AIRPORT FUTURE**
 Doubletree at Sea World • Orlando, Florida
 May 10-11, 2022

Tuesday, May 10, 2022

8:00am – 4:00pm **Registration (Royal Foyer)**

8:00am – 9:00am **Networking Breakfast (Royal 3)**

9:00am – 9:15am **Welcome and Introduction (Royal 1-2)**

9:15 am – 10:30am **The Evolving Project Delivery Landscape (Royal 1-2)**

What are the alternatives to traditional project delivery methods and is your organization ready to use them? In this session, get the latest information on what the different delivery methods encompass and why these methods could be right (or wrong) for your next project.

Presenters: Shane Harbinson, Assistant Director, City of Austin Aviation Department
 Mike Kenig, Holder Construction (Ret'd)

10:30am – 10:45am **AM Networking Break (Royal Foyer)**

10:45am – 12:00pm **Aligning Procurement Processes with Project Delivery Methods - Keys to a Successful Project (Royal 1-2)**

Before they can start design or construction, Airport operators face often complex and time-consuming procurement processes and requirements. In this session, we'll discuss ways in which airport operators and their project delivery teams have worked together to align procurement and project delivery successfully.

Moderator: T.J. Schulz, President, Airport Consultants Council

Panelists: Izzy Bonilla, Vice President of Operations, Mobile Airport Authority
 Robert Hoxie, Chief Development Officer, City of Chicago Department of Aviation
 Russell Stallings, Capital Program Manager, Mobile Airport Authority

12:00pm –
 1:15pm

Networking Lunch (Royal 3)

 1:15pm –
 2:30pm

It Starts with People—Building Your Project Delivery Team (Royal 1-2)

Project delivery methods like conventional design-build, progressive design-build, construction management at risk, and integrated project delivery require the right people both from the owner and the delivery team. Using case studies, we'll discuss the critical people and skill sets needed from both sides and how these need to change depending on the delivery method.

Moderator: Michelle Brantley, Chief Planning Officer, Ontario International Airport

Panelists: Jeff Kyser, Program Director, Parsons

Matthew Meier, P.E., Project Manager, Burns Engineering

Emily Underhill, Division Director, Development, Southwest Florida International Airport

 2:30pm –
 3:00pm

PM Networking Break (Royal Foyer)

 3:00pm –
 4:15pm

Effectively Managing the Design Process (Royal 1-2)

Design process management is important in any major capital project, but even more so under project delivery methods where design occurs concurrently with construction or takes place within a broad project delivery team. In this session, we'll enumerate critical elements of design process management and how these translate into roles and responsibilities for owners, designers, and contractors under various delivery methods. We'll pay particular attention to how owners and contractors can be effectively involved in design processes from project inception to completion.

Moderator: Tom Hellwig, Senior Director & Vice President, Anser Advisory

Panelists: Mike Kenig, Holder Construction (Ret'd)

Ray Melee, Global Aviation Sector Manager, Bechtel

Joe Walker, President & Managing Principal, Walker Architects

 4:15pm –
 5:15pm

Modular Construction Methods (Royal 1-2)

Advanced construction materials and fabrication methods are making modular construction methods an attractive choice for airports. We'll focus on some recent successes in applying these methods to airport projects and the unique considerations that their use entails.

Moderator: Shane Harbinson, Assistant Director, City of Austin Aviation Department

Panelists: Mohamed Charkas, Senior Vice President-Airport Development, Dallas Ft. Worth International Airport

James Dean, Project Executive, Walsh Group

Julie Gavin, Project Manager, PGAL

Michael Lloyd, Principal, PGAL

5:15pm – **Summit Reception (*Pavilion*)**
6:30pm

Wednesday, May 11, 2022

7:30am – **Registration (*Royal Foyer*)**
11:00am

7:30am – **Networking Breakfast (*Royal 3*)**
8:30am

8:30am – **Recap from Tuesday’s Sessions (*Royal 1-2*)**
9:00am

9:00am – **Collaborative Risk Sharing (*Royal 1-2*)**
10:15am

Today’s environment of material cost escalation, labor shortage, and supply chain problems all lead to project uncertainty. This panel will discuss how all parties to an airport construction project can share risk in the most effective way--taking on risk that that they are best equipped to handle. It will review how contract clauses can address these risks and how best to collaborate on contract development and establish stakeholder buy-in.

Moderator: Frank Giunta, Partner, HKA

Panelists: Ronald Ciotti, Partner, Hinckley Allen

John Harris, Senior Vice President & Florida Business Unit Leader, Balfour Beatty

Judi Mosqueda, Director of Project Management, Planning, Design & Construction, San Francisco International Airport

10:15am – **AM Networking Break (*Royal Foyer*)**
10:45am

10:45am – **Getting to “Best Value” in Project Delivery—Roles of Contractors, Designers, and Owners (*Royal 1-2*)**
12:00pm

The concept of “best value” in capital project delivery has long been recognized, but differences abound regarding what the term “best value” means in an environment where many owners focus on initial project costs. In this session, we’ll confront these differences head on and provide insight into how owners, program managers, designers, and contractors can reach a common understanding of “best value” and use it to drive successful projects.

Moderator: Ray Melee, Global Aviation Sector Manager, Bechtel

Panelists: Judi Mosqueda, Director of Project Management, Planning, Design & Construction, San Francisco International Airport

Ryan Toth, Regional Director-Florida, The Beck Group

Jeff Siddle, Vice President-Planning & Design, Tampa International Airport

12:00pm – **Networking Lunch (*Royal 3*)**
1:15pm

PLEASE THANK OUR SUMMIT SPONSORS!
