

REQUEST FOR QUALIFICATIONS (RFQ) FOR CONSULTING SERVICES

The City of Fresno Airports Department is requesting Statements of Qualifications (SOQ) from Consulting firms to provide professional Architectural, Civil Engineering, Electrical Engineering, Planning and Environmental, Mechanical Engineering and/or Geotechnical Engineering services for design, preparation of plans and general construction documents, and other construction related services for projects at Fresno Yosemite International Airport (FAT) and Fresno Chandler Executive Airport (FCH) on an individual project or on call basis over the next five (5) years.

There are six (6) distinct and separate recruitments associated with this notice. The RFQ for each discipline defines the minimum qualifications and requirements. Those individual firms that meet the minimum qualifications of a particular discipline are encouraged to submit separate Statements of Qualifications (SOQ) for each discipline of interest. The Consultant selection process is fully outlined in each RFQ and will follow FAA Advisory Circular (AC) 150/5100-14E and City of Fresno Administrative Order 6-19.

A copy of the complete RFQ is available for each discipline online at <https://flyfresno.com/business-opportunities/> or can be obtained by contacting Jon Bartel at 559-621-4545. SOQs will be received until **3:00 PM PDT on Wednesday, August 31, 2022.**
