### The New World of Reporting and Metrics Unleashed by ESG

*Open to all attendees*

*Cibolo 1-5*

Investors, insurance companies, and rating agencies are asking more and more questions about environmental, social, and governmental (ESG) risks when airports sell bonds and/or source insurance. Few airports annually issue ESG reports, while some are starting to receive these data requests. ACI-NA established a Task Group to develop recommended ESG reporting and metrics, so that airports could define the data that they collect and disclose. Discussion will include the current ESG disclosure scenario, metrics requested by stakeholders, airport director's viewpoint, and the Task Group's findings.

*Moderated by Candace McGraw, CEO, Cincinnati/Northern Kentucky International Airport*
