

Airports Council International **NORTH AMERICA**

AIRPORT INSIGHTS REPORT

Insights

Cirium will run key analytics designed with ACI to help airport stakeholders understand flight schedules, operations, and fleet utilization trends focused on the region.

Airports Council International - North America (ACI-NA) and **Cirium** are partnering to bring in-depth industry insights to the airport community through the new monthly, *ACI-NA Airport Insights Report*. Each month, Cirium will run key analytics to help airport stakeholders understand flight schedules, operations, and airport and airline trends focused on the region. The report will also include a global snapshot.

- Top 4 U.S. and Top Canadian Airports and Airlines by Seat Volume
- Seats by Week trends
- % of Daily Flights Cancelled
- New Routes added and Seats by Cabin Class trends
- Forecast for the next two months

Cirium in collaboration with ACI experts have designed this report to generate industry insights in a dynamic market. Cirium is the largest, most complete provider of aviation data to the airport community and consumes data from more than 2,000 carefully curated sources. Learn more about **Cirium SRS Analyzer**.

It is ACI-NA's and Cirium's goal to provide useful insights which will equip you with information you need to see airport trends and comparisons to gain greater market insights. Contact us for further analytics.

Usage and attribution

The Airports Council International-North America (ACI-NA) is the voice of North American airports, representing local, regional and state governing bodies that own and operate commercial airports in the United States and Canada. ACI-NA is the largest of the five worldwide regions of the Airports Council International (ACI). Our members represent more than 300 airports operating in the United States and Canada and nearly 400 aviation-related businesses.

Cirium delivers data and analytics solutions globally to leaders in finance, aerospace, travel, governments, airlines and more.

The information contained in this report has been compiled from various sources. All data provided through this report is either owned by Cirium or by our third-party data providers. Data collected by Cirium is verified and corrected as it travels through our processing pipeline; however, third-party providers disclaim all responsibility for checking and verifying that the underlying data provided is accurate.
